

DBS Group

1Q26: Well executed quarter, but valuation leaves little room for upside, Maintain U/P

Maintain Rating: UNDERPERFORM | PO: 55.00 SGD | Price: 56.56 SGD

1Q26 – Overall beat largely confirms what’s priced in

DBS reported 1Q26 net profit of S\$2.93bn (+24.2% QoQ / +0.8% YoY), coming slightly ahead of our and Street estimates. While group NIM compressed ~4bp QoQ amid lower SORA, this was more than offset by sharply lower credit costs (~17bp), healthier loan growth (~2% QoQ), stronger trading income, and resilient wealth management fees (+~24% YoY). Overall, a solid quarter, underpinned by strong deposit inflows, effective hedging and continued WM resilience, but not a material surprise.

2026 guidance reiterated, tone marginally more constructive – Management reiterated FY26 guidance (stable topline, slightly lower NII and net profit, HSD non-II growth), but sounded positive on execution, citing strong WM, sustained deposit gains and resilience across loan book. This suggests some upside skew to guidance, contingent on rates and macro evolving more favorably through the year.

Maintain Underperform with PO S\$55 – We maintain Underperform with PO S\$55. At ~2.3x P/B, DBS continues to trade at a premium on hopes of sustained delivery across NIM defense, AQ and wealth, creating downside risk should these disappoint. With high earnings base, we see no room for error. Key risks include wealth metrics continuing to outperform peers and greater clarity on capital management plans, which could drive incremental retail / PB investor interest.

Hits & misses

Misses – NIM compression– 1) Group NIM declined ~4bp QoQ, driven by lower asset yields amid falling SORA, partially offset by deposit repricing and hedging

Hits – healthy loan growth, strong WM momentum, AQ resilience – 1) Healthy loan growth: Loans grew 1.8% QoQ, driven largely by trade loans and growth in TMT, DC and large corporates. 2) Strong wealth momentum: WM fees rose 24% YoY, with net new money of S\$10bn 3) AQ resilience: Total allowances fell sharply to S\$195mn (around half YoY) reflecting absence of prior mgmt. overlays; NPL ratio remained stable at 1.0%.

Company Sector

Banks-Multinational/Universal

Company Description

DBS Group is Singapore's largest bank, owned 30% by the Singapore government's Temasek Holdings unit. DBS purchased Dao Heng Bank in HK in 2001. In Singapore, it has traditionally been strong in corporate and consumer lending. DBS also has a growing presence in Greater China, Southeast Asia and South Asia. DBS has over 280 branches across 18 markets in Asia.

Investment Rationale

We rate DBS Underperform. DBS remains a best-in-class franchise, but both absolute and relative valuations now appear to be pricing in more optimism than warranted by the macro setup. Further re-rating from here would require some new earnings stream starting to deliver meaningfully (one potential source of surprise could be from crypto related businesses).

Key takeaways from analyst call

NIM / NII

- 1Q26 NII was broadly stable QoQ (day-adjusted) despite SORA declining to ~1.07% (from 1.19% in 4Q25) and a stronger SGD. Group NIM fell ~4bp QoQ, with the commercial book down ~5bp.
- Rate pressure was largely mitigated by proactive hedging, CASA-led deposit growth and healthy loan expansion.
- Deposits rose ~3% QoQ, led by retail and corporate CASA. Management noted DBS is gaining more than its fair share of system deposits, with excess liquidity deployed into ROE-neutral to mildly accretive HQLA (group HQLA returns ~1–1.5%).
- SORA guidance remains ~1%, with no rate upside assumed; any rebound would be incrementally positive. Updated sensitivities: +\$11mn per bp (SGD) and –\$4mn per bp (USD).
- FY26 NII still guided slightly lower YoY, reflecting lower benchmark rates and hedge repricing (c. S\$60bn of hedges to be rolled at ~40bp lower vs initial ~50bp).

Growth

- Loans grew ~2% QoQ (constant currency), driven by TMT, data centres, large corporates and wealth-related lending; management remains comfortable with mix.
- Over the cycle, loan growth expected to track GDP, while deposits follow M2, with DBS continuing to gain share.
- Trade loans stayed resilient, supported by the AI server/TMT value chain; 2Q pipeline includes renewables, energy, selective real estate and large corporate deals.
- Citi Taiwan consumer franchise integration is progressing well and contributing to organic growth. SME and consumer books were de-risked last year, with limited appetite for mid-sized SME / consumer expansion.

Non-Interest Income / Wealth

- Customer-driven non-II up ~13% YoY, driven by record transaction services fees, stronger cards/loan fees and improved trading income.
- Wealth was a key highlight: AUM +17% YoY with ~S\$10bn net new money in 1Q (c. S\$6bn PB/Treasures; S\$4bn Treasures), diversified geographically.
- Record banca sales (c. 20% of total wealth fee income). On-shore wealth centres expanded across SG, HK, China, Taiwan, India and Indonesia; SG and HK remain global PB hubs.
- April saw early volatility-related softness, but momentum recovered later in the month, particularly in insurance; investment activity remains diversified beyond equities.

Costs / Efficiency

- Expenses declined QoQ; CIR remains well controlled.
- AI adoption (11+ enterprise use cases across tech, ops and risk) is improving productivity, reducing errors and shortening time-to-market.

Asset Quality

- NPL stable at 1.0%; portfolio quality remains strong.

Total allowances fell sharply to ~S\$195mn (around half of last year), reflecting lower specific provisions and absence of large overlays.

- GP reserves remain elevated at ~S\$3.9bn (including ~S\$2.4bn overlays), with potential scope for write-backs if macro and Middle East risks continue to ease.
- Middle East exposure limited, mainly sovereign-linked/SOEs; focus is on second-order risks (supply chains, energy). China exposure remains selective; HK CRE exposure limited to prime assets; Taiwan remains strong.

Capital / Outlook

- Capital deployment remains flexible, with ~S\$2.6bn buyback capacity and ~1.5 years to execute.
- Management sounded slightly more positive vs prior guidance, citing strong wealth flows, improving North Asia trends and resilient core banking.
- FY26 total income expected broadly in line with FY25, with net profit slightly lower YoY due to rates, excluding upside from higher-than-assumed SORA or GP write-backs.

BofA GLOBAL RESEARCH

Price objective basis & risk

DBS Group (DBSDF / DBSDY)

Our PO of S\$55.00 (US\$173.93) is derived using a Gordon growth model, which assumes a sustainable ROE of 16.5%, cost of equity of 8.7%, and a long-term growth rate of 2.0%. This implies a warranted PBV of 2.3x.

Downside risks to our PO are: protracted global economic slowdown and a significant deterioration in the asset quality environment. Upside risks to our PO are: better than expected macro recovery, faster-than-expected execution of digital strategy boosting operational efficiency, and more active capital management.

Sell	43	19.63%	Sell	35	81.40%

Equity Investment Rating Distribution: Global Group (as of 31 Mar 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships ^{R1}	Count	Percent
Buy	1993	55.76%	Buy	1186	59.51%
Hold	821	22.97%	Hold	509	62.00%
Sell	760	21.26%	Sell	400	52.63%

^{R1} Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. **VOLATILITY RISK RATINGS**, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. **INVESTMENT RATINGS** reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster ^{R2}
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

^{R2}Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. **Coverage Cluster** is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are largely unregulated. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.

This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may be more or less positive than a stock's fundamental equity rating.

BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.

Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.

BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities that may have been recommended in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments discussed in this report.

All opinions, projections and estimates constitute the judgment of the author as of the date of publication and are subject to change without notice. Prices also are subject to change without notice. BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.

Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.

Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.

In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.

Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.
