

Oversea-Chinese Banking Corp. (OCBC.SI): 4Q25 First Take: Beat on PBT on robust fee income and NII, Dividend disappointed

OCBC posted 4Q25 net profit of S\$1,745mn, 3% yoy/-12% qoq, above GSe (+3%). PBT was S\$2,113, above GSe (+8%). Results were driven by : **(1) Robust Non-NII** (+8% vs GSe) supported by **strong fee income** (+16%yoy, +10% vs GSe) from better than expected WM and loan related fees with **robust other non-NII** helping offset weaker insurance income; **(2) NII was slightly above (+3%vs GSe)**, on better than expected NIMs +2 bps qoq with robust loan growth (+4%qoq); **(3) Credit cost was higher than expected** at 24bps due to downgrades of 2 corporate RE accounts with NPL ratio flat at 0.9% with NPA in corporate higher qoq with slightly higher new NPL formation which offset was low due to lower recoveries and upgrade consumer banking NPA was lower qoq. NPA coverage fell to 151% from 160% in 3Q25 while GP coverage held steady at 0.9%. OCBC declared a final DPS of 42 cents, missing our 46 cents estimate with a special dividend of 16 cents. Total DPS for 2025 is 99 cents lower than 2024's 101 cents.

The CEO delivered OCBC's new corporate strategy which will focus on four areas: (1) Asia, (2) Tech, (3) Franchise - deepen the core market franchise, focus on wealth proposition, (4) Net zero. This is to focus on driving sustainable growth; thus the CEO expects a stable to improving ROE driven by the focus on higher returning businesses and maintaining cost discipline with CIR at low to mid 40s%.

OCBC released 2026 guidance: (1) NIM to have slight moderate decline (GSe -10bps yoy); (2) Total income stable to growing (GSe of -0.7%) (3) Credit cost around 20-25bps (GSe 20bps); (4) Mid-single digit loan growth (GSe 3.7%); (5) CIR of low to mid 40% (GSe 42%); (6) 50% ordinary dividend payout ratio; (7) Complete S\$2.5bn capital return by FY26.

Overall, this was a solid set of results with robust fee income growth and better than expected NII, but the dividend disappointed. There were no comments in the press release that special dividends will continue and no specific targets other than improving ROEs were provided on its new corporate strategy with the dividend payout still at 50%. This could see some pressure on the shares given expectations were that that robust dividends would continue. We await more comments at the company's analyst briefing at 9.00am local time today.

Key highlights:

- **Net interest income was slightly higher than GSe**, -6% yoy/+3% qoq. Loan growth was also better than GSe, +4% qoq/+7% yoy (+4%/+9% in constant

currency), in line with guidance of mid-single digit loan growth. 4Q growth was led by Singapore.

- **NIM increased by 2bps qoq to 1.86%, better than GSe**, and below previous guidance of 1.9% for full year. LDR was flattish at 79.6% from 3Q's 79.6%.
- **Non-interest income came in ahead of GSe**, at +37% yoy/ -16% qoq, with strong performance across lines, including robust fee income (-12% qoq/+16% yoy) supported by wealth fees (-17% qoq/ +26% yoy), and strong other non-NII (-5% qoq/ +7% yoy) in a seasonally weaker quarter. Insurance fee income was lower qoq mainly due to adjustments to reflect the updated expectations in the medical insurance environment in Malaysia.
- **NPL ratio was flattish qoq at 0.9%**, NPA in corporate higher qoq with slightly higher new NPL formation which offset was low due to lower recoveries and upgrade consumer banking NPA was lower qoq.
- **Credit cost came in at 24bps on GS calculation** CoC was higher than GSe of 20bps, and higher than previous guidance of 20bps. NPA coverage fell to 151% from 160% in 3Q25 while GP coverage held steady at 0.9%.
- **Expenses were flattish yoy/ +3% qoq**, slightly below GSe, with cost to income ratio (CIR) for the quarter at 43.1%, higher than 3Q25's 40.0%

Our 12-month target price (2-staged DDM based) for OCBC is S\$23.2. Key risks: (-) Sudden or sharper-than-expected FED cut cycle; (-) Unexpected dilutive M&A activity. Remain Buy.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company neither has a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
