

STANDARD CHARTERED (STAN.L/2888.HK)

Updating for 1Q26 results

In short: Earnings were 25% ahead of consensus and 21% ahead of GSe driven by robust non-interest income with NII and tax rate also slightly ahead. Driving the strong beat was the robust non-NII of \$3,033mn in Q1, up 17% y/y and 8% ahead of consensus/GSe, supported by strong growth in Wealth Solutions and Global Banking alongside a \$65mn DVA benefit. NII of \$2,869mn in Q1 declined 3% q/q due to lower HIBOR q/q but beat consensus/GSe by ~3%/1%, supported by broad-based deposit and loan growth (both +3% y/y) across WRB and CIB, and resilient pass through rates. Management have reiterated guidance for broadly flat NII in FY26 (despite a c.42bp rate headwind). Overall, operating income was +10%yoy, 6% ahead of consensus; nonetheless management reaffirmed FY26 operating income growth guidance of around the lower end of +5–7% at constant currency ex-notables (GSe 7.2%). Operating expenses were in line with consensus at \$3.1bn in Q1 (+1% y/y), with business growth and inflation costs partly offset by savings, delivering a 53% cost/income ratio and 8ppt positive jaws, while management reiterated guidance for broadly flat 2026 costs at constant currency ex-notables. Credit impairments of \$296mn (32bps) were 3%/1% above consensus/GSe, but include \$190mn of overlays and PMAs (linked to macro uncertainty); underlying credit performance remained benign at 15bps, leading us to lower our FY26 CoR assumption (to 34bps) before a gradual normalisation in 2027–28. PBT beat consensus/GSe by 14%/9% and the tax rate came in 6pp lower than expected leaving earnings 25%/21% above expectations/GSe. CET1% was 40bps light of expectations due to both lower capital (share buyback accrual and FVOCI headwinds) and higher RWAs (business investment). The RWA element is linked to higher top-line activity, with revenues as a % of RWAs exceeding expectations. ROTE for Q1 came in at 17.4% (consensus 13.8%), with 2026 guidance reiterated including the target for >12% ROTE (GSe 13.5%).

Net interest income: of \$2,869mn in Q1, -3% q/q (primarily due to the 66bp reduction in HIBOR across the quarter, offset in part by volume growth and an improved mix relating to heightened client activity), exceeding consensus expectations by c.3%. Deposit volumes grew +2% q/q (+3% excl. FX impacts), supported by NNM inflows in CASA within the Affluent segment in WRB, as well as increased Transaction Services CASA in the CIB. Similarly, lending volumes grew +2% q/q, driven by Global Banking in the CIB, as well as growth in wealth lending and mortgages within WRB, offset in part by a reduction in lending within CCPL &

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

unsecured. Pass-through rates (PTRs) remained within the target range in WRB (35-50%), while above expected levels in the CIB (target range of 60-75%), with an annualised impact from a 1% shift in PTRs of c.\$30mn in NII. Management reiterated guidance of broadly flat y/y growth in NII during FY26 (at constant currency), now assuming a 42bp headwind from weighted-average interest rates during 2026 (44bp expected at FY25 results), while continuing to expect a c.2% impact from portfolio actions in WRB and for PTRs to normalise within their target ranges. Overall, our NII forecasts increase modestly by c.0-1% pa across 2026-28E.

Other income: was \$3,033mn in Q1, +17% y/y on a reported basis (+16% ccy), and exceeded consensus by 8%, with the uptick driven in particular by growth in Wealth Solutions (14%/\$127mn beat, given heightened client activity across various asset classes, with record Affluent NNM inflows), as well as Global Banking (which recorded a 12%/\$69mn beat, driven by origination volumes and Capital Markets), alongside a +\$65mn DVA impact within the quarter. Within Global Markets, flow momentum continued, although this was offset in part by a reduction in episodic income. This +\$228mn beat in other income across the Group, coupled with the +\$88mn beat in NII, resulted in an overall statutory operating income beat of 6%/\$316mn. For FY26, management reiterated guidance for reported operating income y/y growth within a 5-7% range at ccy (which implies c.\$22.0bn at the 5% bottom end, with consensus marginally below), while we now expect +6.5% income growth to \$22.3bn for 2026E.

Operating expenses: were in line with consensus expectations in Q1 at \$3.14bn, +1% y/y. This includes a \$67mn headwind y/y from FX, a \$148mn increase y/y in business growth and inflation (guided at \$0.7bn for the full year) and \$54mn in additional FFG costs (totalling \$119mn in Q1) offset by \$174mn in savings. Business growth and inflation was largely driven by revenue focused investments in Affluent and CIB. The cost/income ratio in Q1 was 53%, vs consensus 56%, with 8p.p. of positive Jaws (income growth less opex growth). Standard Chartered continues to expect 2026 costs to be broadly flat at constant currency (implies \$13.2bn), FFG CTA is still expected to total c.\$600mn this year, with no comment on phasing (\$119mn in Q1). Looking ahead we model 2026 opex at \$13.25bn, declining to \$13.0bn in 2027 (c.\$600mn lower CTA, c.\$300mn savings, c.\$700mn business growth and inflation) and \$13.5bn in 2028.

Credit impairments: were \$296mn, 3% above consensus, representing an annualised loan-loss rate of 32bps (+7bps y/y). This includes \$190mn in overlays and PMAs (related to heightened macro uncertainty), excluding these effects the loan-loss rate would have come to c.11bps. In CIB Credit Impairments increased by \$2mn y/y (to \$111mn) with \$126mn in overlays partly offset by releases and recoveries. In WRB Credit Impairments were down \$8mn y/y as overlays of \$34mn were more than fully offset by portfolio derisking actions. We now model 34bp CoR this year (36bp previously) given better-than-expected credit conditions, with CoR rising to 36bp in 2027/28E.

Profitability: Net profit (post minorities and AT1) was \$1,660mn in Q4, 25% above consensus with the 14% PBT beat aided by a lower than expected effective tax rate (22% vs 28%) partly offset by higher minorities and AT1 costs. ROTE was 17.4% in Q1, 360bps above consensus (13.8%). The Group continues to guide for reported ROTE in 2026 of >12% (consensus 12.5%). We model 13.6% reported ROTE in 2026E, increasing to 15.4% in 2027E (supported by underlying operating leverage and a reduction in restructuring charges relating to Fit for Growth).

Capital: CET1% was 40bps below expectations for Q1 at 13.4% with the miss evenly attributable to both lower than expected CET1 capital (c.1% lower) and higher than expected RWAs (2% higher). RWAs increased by \$8.2bn q/q due to Asset Growth and Mix (+\$6.8bn) and Market Risk RWA (+\$3bn) partly offset by FX (-\$1.9bn). Effectively the growth in RWAs, and therefore a significant portion of the capital miss, is driven by Standard Chartered deciding to put more balance sheet to work in an environment characterised by higher activity levels (most obviously seen in Global Markets). Importantly, Operating Income as a % of average RWAs was slightly higher (9%) than consensus had modelled (8.6%), i.e. the Bank was not forced to confront a trade off between asset efficiency and absolute volumes. The evolution in the CET1% q/q also include the accrual for the \$1.5bn buyback (-58bps, announced with Q4 results) and the accrual for half of the anticipated interim divide (assumed at half of FY25 DPS).

2026 guidance points:

- Reported operating income growth y/y to be around the bottom end of 5-7% range (at ccy, ex notables). Implies c.\$21.8bn (at +5% y/y), vs company-compiled cons. \$21.95bn.
- Underlying NII expected to be broadly flat y/y (at ccy). Implies c.\$11.2bn, vs cons. \$11.24bn.
 - 42bp weighted average interest rates headwind y/y in 2026 (implies \$260mn in NII headwind y/y using the IRRBB sensitivity of \$620mn [FY25 in Q4'25 slide] per 100bps parallel shift).
 - Pass-through rates (PTRs) expected to move back within the guidance range (NB, 60-75% in CIB and 35-50% in WRB disclosed at Q4).
 - Ongoing WRB portfolio actions expected to be a c.2% headwind to NII y/y.
- Reported costs to be broadly flat (at ccy, ex notables), including FFG charges (c.\$0.6bn). Implies c.\$13.2bn, (vs cons \$13.3bn).
- Statutory ROTE >12%, vs cons. 12.5%.

Estimate changes, valuation and key risks:

We increase our EPS forecast by 5% in 2026E, reflecting the Q1 beat and more modest assumed LLPs, while partly offset by higher assumed opex for the year (with GSe now in line with management guidance). For 2027/28E, our EPS forecasts are largely unchanged (+1%/+0%), with slightly higher assumed revenues, predominantly in non-NII.

Our 12m price target for STAN.L increases to 2,260p, vs 2,165p previously, on our estimate changes and valuation period roll forward — with our P/E valuation methodology now applied 75%/25% to 2027/28E estimates (vs wholly on 2027E previously), using an unchanged 10.25x multiple.

Our 12m price target for 2888.HK (based on a 2-stage dividend discount model) increases HK\$243.0, vs HK\$237.0 previously, including a modestly higher sustainable ROTE baked in (up to 13.5% vs 13.0% previously) given recent profitability improvements and continued execution of the strategic plan.

We are Buy-rated on STAN.L and 2888.HK. Key downside risks include reversal/pause of

positive jaws delivery, slower-than-expected non-interest income growth,
lower-than-expected net interest income growth.

Source: Company data, Goldman Sachs Research estimates, FactSet. Price as of 29 Apr 2026 close.

Standard Chartered is a global bank with over 650 branches in 53 markets. STAN HK is the 3rd largest player, holding ~12%/11% of HK local market shares in deposits/loans. We are Buy rated on STAN.L/2888.HK given **(1) Robust and sustained momentum in the affluent segment.** We see the bank as well-positioned to leverage the robust and sustained liquidity inflows into Hong Kong and Singapore, a significant tailwind that we believe will continue to fuel its growth and differentiate its performance from peers. **(2) Positive trajectory in Global Markets and Banking,** underpinned by steady market share gains. **(3) Positive jaws with scope to further unlock operational leverage.** **(4) Attractive shareholder returns** with total yield (dividend + buybacks) ranking among the top quartile of DM comps. We expect statutory ROTE to trend above 12% for 2026E (target >12%), and to improve notably further in 2027-2028E. Key downside risks include reversal/pause of positive jaws delivery, slower-than-expected non-interest income growth, lower-than-expected net interest income growth.

Disclosure Appendix

Reg AC

We, Chris Hallam, Melissa Kuang, CFA, Benjamin Caven-Roberts, Sachin Nayar and Wayne Wang, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed in the Contributing Authors disclosure of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Regulatory disclosures**Disclosures required by United States laws and regulations**

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Distribution of ratings: See the distribution of ratings disclosure above. **Price chart:** See the price chart, with changes of ratings and price targets in prior periods, above, or, if electronic format or if with respect to multiple companies which are the subject of this report, on the Goldman Sachs website at <https://www.gs.com/research/hedge.html>.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Investment in securities market are subject to market risks. Read all the related documents carefully before investing. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details can be found at: <https://www.goldmansachs.com/worldwide/india/documents/Grievance-Redressal-and-Escalation-Matrix.pdf>, and a copy of the annual audit compliance report can be found at this link: <https://publishing.gs.com/content/site/india-annual-compliance-report.html>. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is

implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at <https://www.gs.com/disclosures/europeanpolicy.html> which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
