

STANDARD CHARTERED (STAN.L/2888.HK)

Updating for Q2'26 results

In short: Q2 earnings were 17% ahead of consensus and 11% ahead of GSe, driven by a combination of **(1) stronger-than-expected non-interest income, (2) Lower provisions, (3) modest NII beat and (4) more favourable tax rate**. The key driver was non-NII of \$2.83bn, which was 5% ahead of consensus, supported by another strong quarter in Wealth Solutions and better-than-expected Global Banking revenues, more than offsetting a weaker episodic Markets performance and a -\$57mn DVA impact. NII of \$2.87bn was 1% ahead of consensus and +1% q/q, benefiting from day count, continued loan and deposit growth (incl NNM in Wealth) and mix effects. Importantly, management upgraded FY26 NII guidance from broadly flat to low-single-digit growth (consensus models +2% y/y). Overall operating income beat consensus by 3%, with **management lifting FY26 operating income guidance from the bottom to the middle of the 5–7% growth range (consensus +6.6% y/y)**. Costs were slightly below expectations but, excluding a Korea ELS provision release, were broadly in line, with Fit For Growth savings continuing to offset business growth and inflation. **Revised cost guidance of c.\$13.3bn sits c.1% below consensus** on a comparable basis. Credit impairments of \$150mn were 37% below consensus despite a \$44mn overlay related to the Middle East, with the annualised loan-loss rate declining to 20bp and underlying asset quality remaining benign. PBT beat consensus by 13%, while a lower-than-expected 25% tax rate helped drive net profit 17% above expectations and lifted 1H26 ROTE to 17.6%. CET1 of 14.2% was c.50bp above consensus, supported by stronger profit generation and lower RWAs (some of which will reverse in H2), enabling a new \$1bn buyback announcement. Importantly, **management upgraded FY26 guidance with (1) operating income guidance from the bottom to the middle of the 5–7% growth range (consensus +6.6% y/y), (2) NII guidance from broadly flat to low-single-digit growth (consensus models +2% y/y), (3) Revised cost guidance of c.\$13.3bn sits c.1% below consensus**.

Reflecting the stronger revenue trajectory, particularly in Wealth Solutions, we raise our FY26 EPS forecast by 4% with our 2027/28E EPS forecasts remain broadly unchanged, **increase our 12-month price target to 2,660p/HK\$276 (from 2,530p/HK\$267) and reiterate our Buy rating**.

Net interest income: of \$2,871mn in Q1, 1% above consensus and +1% q/q, due to day count, volume and mix more than offsetting headwinds from rates and portfolio actions in WRB. Deposits grew 2% q/q (+5% ytd), which was supported by continued

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

momentum in NNM (which totalled +\$15bn in the quarter, of which \$6bn came into deposits and \$9bn in Wealth). The growth in WRB deposit balances skewed towards Term deposits with the mix of CASA vs Term shifting by 2pp to Term (now at 50:50). In the CIB, deposit growth was driven by geopolitical flows and growth in transaction services. Loan volumes grew 2% q/q (+5.7% ytd) driven by higher lending in Wealth and Mortgages partly offset by lower unsecured lending, growth in lending in the CIB was mainly driven by Global Banking. 2026 NII guidance has been upgraded to low single-digit % growth y/y at constant currency (vs. 'broadly flat y/y' previously). This implies c.\$11.4-11.6bn in 2026 (cons. \$11.38bn). In the second-half of the year, NII momentum is expected to be impacted by ongoing volume growth and deposit mix tailwinds which will be offset by changes in deposit mix in WRB and an ongoing headwind from WRB portfolio actions. Today's revised guidance implies c.\$5.65-5.85bn in H2 NII (vs implied cons. of \$5.64bn). Overall, our NII forecast remains largely unchanged in 2026E, while increasing by 1% in each of 2027/28E.

Other income: was flat y/y on a headline basis at \$2,831mn, but this includes the \$238mn Solv gain in Q2'25, excluding this gain non-interest income was +9% y/y at constant currency, 5% above consensus. This was by growth in Wealth Solutions (16%/\$148mn beat), driven by strong growth in investment products (robust NNM trends at \$15bn which is below 1Q's \$18bn but above guidance of \$12.5bn per quarter), as well as better than expected performance in Global Banking (6%/\$34mn beat) across a range of products and including origination and distribution volumes. Global Market was more mixed with 16% y/y growth in Flow more than offset by a c.50% drop in episodic income (reflecting the tough comp from the tariff related volatility in Q2'25). Within CIB, there was also a -\$57mn DVA impact in Q2, vs +\$65mn in Q1. The +\$123mn beat in non-NII, coupled with the +\$32mn beat in NII, resulted in an overall statutory operating income beat of 3%/\$155mn. For FY26, management have increased their overall operating income guidance to be around the middle of the 5-7% range (prev. around the bottom end of the 5-7% range), this implies c.\$22bn with consensus currently at \$22.2bn. On our updated estimates, we now expect +7.0% income growth to \$22.4bn for 2026E.

Operating expenses: 2%/\$56mn lower than expected on a headline basis however this includes a \$74mn provision release relating to Korea ELS. Adjusting for this \$74mn tailwind, Opex would have been essentially in line with expectations and +3% y/y. Within the y/y bridge, Business Growth and Inflation headwind (+\$286mn) have been broadly offset by FFG savings (\$238mn). FFG CTA was \$128mn in Q2 (+\$41mn y/y), bringing the H1 total to \$248mn (FY26 expectation for c.\$0.6bn is unchanged). At Q1, the C/I ratio came in at 56% (57% excl Korea ELS) vs cons 58.6%. The company now guide for expenses at c.\$13.3bn (at cc, ex. notables, which implies c.\$13.2bn on a headline basis on our calculations, assuming no further notables in the remainder of the year; cons. is \$13.34bn on a headline basis) vs the prior guidance to be broadly flat around \$13.2bn at cc, ex. notables. Looking ahead, we model 2026 opex at \$13.2bn, and then \$13.6bn in 2027 and \$14.2bn in 2028 (vs cons. \$13.5/14.1bn in 2027/28E).

Asset quality: Credit impairments of \$150mn at Q2 (c.37%/\$90mn lower than expectations), representing an annualised LLR of 20bp (+8bp y/y, but -12bp q/q). This brings total credit cost to 31bps for 1H26 and STAN continues to guide for the 30-35bp range through-the-cycle. The Q2 result included an additional management overlay of \$44mn (for impacts related to the current Middle East conflict, such as on the

petrochemical sector and potential sovereign downgrades). Across the Group, Q2 credit impairments included \$116mn within WRB (-c.\$50mn y/y following de-risking actions in the unsecured portfolio) and \$39mn in the CIB (+c.\$80mn y/y primarily from overlays and portfolio changes). We model 30bp CoR for 2026E, before increasing modestly to 31bp/32bp across 2027/28E.

Profitability: Net profit was \$1,708mn in Q2 (17% ahead of consensus), including a 13% PBT beat, a more favourable effective tax rate (25% vs cons. 27%), with minorities/AT1s in line, leaving 1H'26 ROTE at 17.6%. For 2026, STAN continues to guide for a >12% ROTE (with cons. at 13.1%). We model 14.2% ROTE in 2026E, before increasing to 15.3% in 2027E, and then 16.4% in 2028E (vs guidance of c.18%).

Capital: CET1% was c.40bp above expectations for Q2 at 14.2% (+c.80bp q/q), supported by an increase in attributable profit (+c.60bp) and a 2%/\$4.7bn reduction in RWAs q/q (+c.20bp impact), although this RWA reduction is expected to largely reverse across 2H'26. The RWA decrease during the quarter included \$2.2bn from a reduction in asset growth/mix, alongside a \$1.4bn reduction in Market RWA. In terms of distribution, a \$1bn SBB has been announced (c.-38bp impact to CET1% at Q3, given STAN deduct from capital during the quarter when announced), as well as an interim dividend of 20.4c per share. Management intend to operate within an unchanged 13-14% CET1% range throughout the current plan, broadly aligned with our forecasts.

2026 guidance (updated):

- **Operating income y/y growth around the middle of the 5-7% range** (prev. bottom end of range, at ccy, excl. notables), which implies c.\$22.0bn, vs company-compiled cons. \$22.17bn
- **NII y/y growth low-single-digit %** (prev. broadly flat, at ccy), which implies c.\$11.4-11.6bn (assuming +2-4%), vs cons. \$11.38bn
 - -39bp currency-weighted interest rate headwind y/y expected in 2026 (prev. -42bp), which implies -c.\$230mn NII headwind y/y using IRRBB sensitivity of -\$290mn per -50bp downward shift
 - Ongoing impact from WRB portfolio actions (c.2% headwind to y/y NII growth mentioned at Q1 results)
- **Expenses c.\$13.3bn** (prev. broadly flat vs c.\$13.2bn base, at ccy, excl. notables), vs cons. \$13.34bn
 - FFG (Fit for Growth) programme remains on track (\$248mn CTA in 1H'26, c.\$0.6bn expected across 2026 as mentioned at Q1 results)
- **ROTE >12%, vs cons. 13.1%.**

Additional guidance points:

- +35bp weighted average interest rates tailwind y/y in 2027 (prev. +5bp), which implies +c.\$150mn NII tailwind y/y using IRRBB sensitivity of +\$220mn per 50bp upward shift
- Income CAGR 2025-28 of 5-7% (at ccy, excl. notables)
- C/I ratio c.57% in 2028 (excl. notables)

- LLR 30-35bp through-the-cycle
- CET1% operating range remains at 13-14% (cons. 13.7-13.9% across 2026-28)
 - Q2'26 RWA reduction of \$4.7bn q/q is expected to largely reverse across H2'26
- EPS CAGR 2025-28 high-teens % (cons. +18.8%)
- Dividend payout ratio of at least 30% (cons. at 30% across 2026-28), with progressive DPS
- ROTE >15% in 2028 (cons. 15.5%), and c.18% in 2030
- Affluent NNM 2025-28 of \$200bn (c.\$84bn delivered so far, incl. c.\$33bn at 1H'26)
 - Affluent as % of WRB income at 75% by 2028 (excl. Digital banks, currently 73% at 1H'26)
- Network income % of CIB income at c.70% by 2028 (currently 67% at 1H'26)
- Financial Institutions income % of CIB income at c.60% by 2028 (currently 54% at 1H'26)

Estimate changes, valuation and key risks:

Our EPS forecast increases 4% in 2026E, driven by higher non-interest income and lower operating expenses, primarily reflecting the Q2 beat (with the largest outperformance vs our revenue estimates in Wealth Solutions, and with a provision release benefitting opex). Our 2027/28E EPS forecasts remain broadly unchanged, with modestly higher revenues offset by slightly higher assumed costs.

Our 12m price target for STAN.L increases to 2,660p (2,530p previously) as we roll forward our P/E valuation methodology to apply 50%/50% to 2027/28E estimates (vs 75%/25% previously), using an unchanged 11.5x multiple, combined with our estimate changes.

Our 12m price target for 2888.HK (based on a 2-stage dividend discount model) increases to HK\$276 (HK\$267 previously), reflecting a slightly higher assumed sustainable ROTE (up to 14.5% vs 14.0% previously).

We are Buy-rated on STAN.L and 2888.HK. Key downside risks include reversal/pause of positive jaws delivery, slower-than-expected non-interest income growth, lower-than-expected net interest income growth.

Standard Chartered is a global bank with over 650 branches in 53 markets. STAN HK is the 3rd largest player, holding ~12%/11% of HK local market share in deposits/loans. We are Buy rated on STAN.L/2888.HK given (1) Robust and sustained momentum in the affluent segment. We see the bank as well-positioned to leverage the robust and sustained liquidity inflows into Hong Kong and Singapore, a significant tailwind that we believe will continue to fuel its growth and differentiate its performance from peers. (2) Positive trajectory in Global Markets and Banking, underpinned by steady market share gains. (3) Positive jaws with scope to further unlock operational leverage. (4) Attractive shareholder returns with total yield (dividend + buybacks) ranking among the top quartile of DM comps. We expect statutory ROTE to trend at c.14% for 2026E (target >12%), and to improve notably further in 2027-2028E. Key downside risks include reversal/pause of positive jaws delivery, slower-than-expected non-interest income growth, lower-than-expected net interest income growth.

Disclosure Appendix

Reg AC

We, Chris Hallam, Melissa Kuang, CFA, Benjamin Caven-Roberts, Sachin Nayar and Wayne Wang, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed on the cover page of this report are analysts in Goldman Sachs' Global Investment Research division.

Contributing Authors: Chris Hallam Goldman Sachs International, Melissa Kuang, CFA Goldman Sachs (Singapore) Pte, Benjamin Caven-Roberts Goldman Sachs International, Sachin Nayar Goldman Sachs International, Wayne Wang Goldman Sachs (Singapore) Pte.

Unless otherwise stated, the individuals listed in the Contributing Authors disclosure of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: <https://www.goldmansachs.com/worldwide/india/research-analyst>. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at <https://www.gs.com/disclosures/europeanpolicy.html> which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or contatogoldmanbrasil@gs.com. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
