

HSBC (0005.HK/HSBA.L): 1Q26 first take: Inline

HSBC reported 1Q26 underlying PBT of US\$10.1bn, **3%/0% ahead of GSe/company-compiled consensus** on account of +9%/6% beat to GSe/cons in non-banking NII, while banking NII inline. These positives were offset by cost that was 5%/4% higher than GSe/Cons and impairment +2%/+9% GSe/Cons. The robust non-NII was driven by wealth management where fee income was up +15% yoy on stronger investment distribution and insurance fees. NNM was robust at \$39bn with Asia contributing to US\$34bn ahead of 4Q25's NNM of \$26bn and 1Q25's US\$23bn. CoC was higher than expected at 52bps of which US\$0.3bn was for Middle East and \$0.4bn for fraud related case in the UK. HK CRE was stable. HSBC now expect CoC of 45bps for 2026 vs 40bps prior which means 2Q26 CoC will still be above 40bps. Costs were also higher than expected +3% yoy on ccy driven by higher variable pay (ex VP would have been +2% yoy) in which the company still anticipates full year cost growth of 1% on ccy. CET 1 CAR at 14.0% and HSBC declared an interim dividend of US\$0.10. No share buyback was declared, inline with our expectations that it will resume in 2Q26.

Goldman Sachs (Singapore) Pte

For 2026 guidance, management made some changes with:

- Bank NII at ~US\$46bn (noting improve volatile rate outlook) from at least US\$45bn (cons of US\$45.8bn)
- ECL charges to ~45bps (reflecting uncertainty) from of 40bps (cons 42bps)
- Cost at 1% growth on a target basis - this would see cost at \$34.3bn for 2026 (cons \$34.0bn)
- CET1 of 14-15%

Its 3 year targets was also reiterated.

- Revenue - Rising to 5%yoy growth by 2028 excluding notable items (cons 4.0%/4.1%/4.4% for 2026/27/28)
- ROTE - 17% or better, excluding notable items, each year (cons 17.5%/17.9%/18.3 for 2026/27/28)
- Dividends - 50% of EPS, excluding material notable items and related impacts

Overall, broadly an inline set of numbers (albeit with a different mix vs consensus expectations) with a strong beat in non-NII which was positive, but this was offset by higher operating expenses and credit costs. The changes in guidance suggest some

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. offsets with higher banking NII but higher expected provisions. Based on guidance, consensus should remain fairly unchanged with Banking NII already reflecting higher guidance, but some revision will take place for higher ECL offset by higher fee income momentum. There could be some concerns on the higher CoC guidance but overall we still feel comfort with the bank's robust non-NII growth which will help offset. Remain Buy.

Key highlights:

- **Revenues (+):** Underlying revenues were 3%/2% ahead of GSe/consensus, driven by stronger non-NII which came in at US\$7.8bn, which beat by 9%/6%, and banking NII was US\$11.2bn, inline with GSe/Cons. **Non-banking NII** +31%/+6% qoq/yoy on constant ccy terms. Wealth management fee income was up +15% yoy on stronger investment distribution and insurance fees. NNM was robust at \$39bn with Asia contributing to US\$34bn ahead of 4Q25's NNM of \$26bn and 1Q25's US\$23bn. **Within Banking NII**, it was up -5%/+2% qoq/yoy on constant ccy terms, and qoq fall was attributable to lower HIBOR and lower day counts with one off items of US-\$0.1 in 1Q26. Deposit growth was +1%qoq/+5%yoy. Management has revised up banking NII to US\$46bn noting improve volatile rate outlook with cons coming in at US\$45.8bn.
- **Costs (-):** Opex was above GSe/consensus (+5/+4) and grew 8% yoy but 3% on ccy in 1Q mainly driven by higher variable pay accruals phasing and continued investment, partly offset by organizational simplification savings. Ex VP cost would have been +2% yoy still higher than FY guidance of +1% yoy. HSBC notes that cost ex notables was slightly softer in 1Q25 given liberation day with lesser profits accruing, as such cost was more back end loaded last year and cost this year is more evenly spread. Simplification savings of ~US\$0.3bn was realized in 1Q26, with further ~US\$0.4bn to be realized for the remaining of the year. Mgmt reiterated FY26 cost growth guidance of ~1% on a target basis.
- **Credit costs (-)** at US\$1.3bn was higher than expectations (+2%/+9% vs GS/consensus), due to US\$0.3bn for Middle East and a US\$0.4bn for fraud related case in the UK. HK CRE was stable with no CRE bad debt charges. Mgmt has raised its guidance for FY26 to 45bp from 40bps. With 1Q CoC at 52bps, CoC will likely remain elevated at ~48bps in 2Q before returning to 40bps for 2H26. GSe for CoC for 2026 is 41bps with cons at 42bps.
- **Capital (+):** CET 1 CAR came above GS expectations at 14.0% but inline with cons. CET1 fell incorporating the acquisition of HSB and Malta disposal loss, RWA growth and 12bps decrease in FV of HTC and sell debt instruments. RWAs -1% qoq, were below consensus expectations with growth in RWA from higher corporate lending offset by release from strategic initiatives.

Price Target Risks and Methodology - HSBC Holdings (HSBA.L)

Our 12-month price target of GBp1,650 is based on a P/E methodology, using 12.0x target multiple applied entirely to our 2027E EPS forecast, vs an average target multiple of c.10.5x for our European Banks coverage, reflecting in part various structural advantages held by HSBC, including its deposit-centric growth (capital-light income, with associated hedge benefits), across a range of supportive regions/products, alongside meaningful opportunities for non-NII growth via the Wealth segment. Downside risks include: 1) Weaker-than-expected Banking NII, including faster-than-expected Fed rate cuts, or a widening gap between HIBOR and Fed rate; 2) Slower-than-expected non-NII growth, including a potential slowdown in global trade or increased competition from peers; 3) Reversal/pause of positive operating efficiency trajectory if simplification efforts are impacted adversely.

Price Target Risks and Methodology - HSBC Holdings (0005.HK)

Our 12-month price target of HK\$160 is based on a two-stage DDM. Downside risks

include: 1) Weaker-than-expected Banking NII, including faster-than-expected Fed rate cuts, or a widening gap between HIBOR and Fed rate; 2) Slower-than-expected non-NII growth, including a potential slow down in global trade or increased competition from peers; 3) Reversal/pause of positive operating efficiency trajectory if simplification efforts are impacted adversely.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is

deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction

costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
